

ABOUT US

Orion Startups Accelerator is a business accelerator that supports early stage companies in the Software and Internet space, and it is powered by Tec de Monterrey in the city of Chihuahua.

LOCATION

Orion is located in the Innovation and Technology Transfer Park, inside Tec de Monterrey, Campus Chihuahua, a house for tech clusters and companies in the IT, Aerospace, Automotive, Energy, Mining and others sectors, with great access to the best of both markets: US and Latin America.

GAN

Orion Startups is an active member of the Global Accelerator Network, created by the well-known TechStars accelerator, and it integrates the best accelerators around the globe. This gives our teams access to mentors, investors, entrepreneurship events and many perks.

OUR TEAM

Our team has years of experience in entrepreneurship, technology, innovation, education and business. Our philosophy resides in helping entrepreneurial teams succeed and achieve their business goals.

Our 5-month acceleration program is based on experienced mentorships, intense follow up, useful curated content, great connections and many perks. We work closely with every company to move ahead rapidly and get the work done.

Type of companies we accelerate

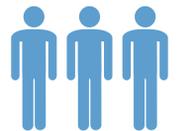

Tech-based companies specially in the Software and Internet industry

Fast scalability and growth

High potential to expand to global markets

Multidisciplinary teams in technology and business

We work closely with teams

Every company creates their plan and goals for the business and product. This is the roadmap to follow during the 5 month program.

Twice a week, we meet with teams to check progress, share learning and make adjustments to the plan. One on One meetings are held bi-weekly.

External experience speakers are invited to speak in the Startup Talk Series about relevant topics: legal, product development, UX, lean startup, marketing, and others.

We open our network of contacts to our teams that helps them in their business goals and search for capital.

Benefits we provide

Our companies receive mentorships by experienced entrepreneurs, investors, marketers, and business people that have lived what you will in the road.

Located in the Innovation and Tech Transfer Park in the Tec de Monterrey in Chihuahua, our companies enjoy access to office space, meetings rooms, Internet and communication services.

Companies have access to a talent pool from Tec de Monterrey and the surrounding universities in all tech and business areas, which can play roles as interns, partial or full time employees.

The Innovation and Tech Transfer Park offers a nurtured innovation and entrepreneurial ecosystem that allows entrepreneurs connect and meet colleagues, suppliers, potential customers and clients.

Our Acceleration Process helps on
